Apple TV icon (horizontal mobile view)

Don't see the icon? Make sure you are on the same WiFi network as the Apple TV.

WATCH ON YOUR TV USING YOUR COMPUTER + HDMI CABLE

It is possible to connect an HDMI cable from many computers to a TV. Even if your computer does not have an HDMI port, it is often possible to buy an adapter.

1. Get the right HDMI cable for your TV.

2. Locate an available HDMI port on your TV and connect one end of the cable to it.

3. Connect the other end of the cable to your computer (an adapter may be required).

4. Switch the HDMI source on your TV to match the HDMI port previously selected.
